Edgewater Technology – Wakefield, MA *Café & Lounge Area*

Reminiscent of a 1950's diner with a "modern-retro" theme, the Edgewater Café is programmed to provide various nodes of casual dining/ meeting areas capable of fostering collaboration as well as offering a visual respite.

The focal point behind the custom stainless steel counter is back lit with LED lights of alternating hues.

An undulating, glass feature is located on the ceiling within the kitchen, as well as other areas, providing a design component that is also a reflective element.

A galley kitchen set behind the overhead door provides a staging area to service any event in the adjacent dividable conference center.
