New Designs, Space Planning, Interior Design

Dentist Office – Hopkinton, MA

(related experience with Gorman Richardson Architects)

Project consisted of final space planning, coordination with equipment supplier and final finish selections. Permit drawings included plans, reflected ceiling plans, interior elevations and millwork details for most lab and circular reception desk. Program requirements included four large operatories, a reception area, a waiting area, lab, x-ray processing area, and break area. Finish selections were conceived utilizing a subdued cool color palette to invite a relaxed atmosphere for the patients.
