Design, Feasibility Studies and Management

Marlborough Middle School - Marlborough, MA (related experience with Tappe Associates)

This project for the City of Marlborough was phased over three years while occupied by students from grades 5-9. Consisting of the renovation of 165,000 sq. ft. of existing space and additions of 175,000 sq. ft., the sequencing and coordination during construction was crucial. Programming included state of the art; computer, music and science classrooms, a media center in addition to all administration and other areas. The existing cafeteria and kitchen was completely renovated and a new cafeteria with serving line was constructed.
